Buffalo Soldiers Film Screening at the DuPont Historical Museum

The documentary film "Buffalo Soldiers: Fighting on Two Fronts" will be shown at Eagle's Pride Golf Course and followed by Q&A with filmmaker Dru Holley. "In 1866, six all-Black cavalry and infantry regiments were created after Congress passed the Army Organization Act. They came to be known as Buffalo Soldiers. The film explores the often contradictory role played by the Buffalo Soldiers throughout American history, with particular emphasis on the settling of the American West."

The film won the 2023 Public Media Award for Best Historical Documentary. The event is funded with grants from the Puyallup Tribe of Indians Charity Trust and the Nisqually Delta Association.

Recommended for ages 13 and up.

AUGUST 2023

I-5 - Mounts Rd. to Steilacoom-DuPont Rd. Corridor Improvements

Beginning in late summer 2023, contractor crews working for the Washington State Department of Transportation will begin construction on Interstate 5 in DuPont near Joint Base Lewis-McChord. This is the third in a series of projects that widens I-5 to add HOV lanes between DuPont and Lakewood.

Improvements coming to DuPont and JBLM

In addition to extending the I-5 HOV lanes, construction crews will make improvements that enhance mobility and safety in DuPont and near the JBLM DuPont Gate at exit 119, including:

- A new bridge spanning I-5 and the railroad. The new bridge will feature a partial Diverging Diamond Interchange and a shared-use path for pedestrians and bicyclists between JBLM and DuPont.
- Direct access between JBLM and both directions of I-5.
- A new roundabout connecting Steilacoom-DuPont Road and the new overpass.

The project will also add a new signal at the intersection of the southbound I-5 off-ramp at Mounts Road (exit 116) and improve the I-5 vertical clearance over Pendleton Avenue.

What you can expect

Construction will begin in summer 2023 and is expected to be complete in 2026. The project consists of multiple stages that involve overnight and weekend ramp closures, lane shifts onto temporary pavement, potential speed limit reductions, and bicycle and pedestrian detours. Crews will contain dust and debris to the construction site and will minimize noise as much as practical. Clear signage will indicate required detours throughout the project.

The project extends HOV lanes in both directions into DuPont.

Safety Message - 9-Volt Battery Safety

9-volt Battery Safety

9-volt batteries power our smoke alarms, household items and toys. They can be found in most homes. But these batteries can be a fire hazard if not stored safely or disposed of with care.

The problem

- 9-volt batteries can be dangerous. The positive and negative posts are close together. If a metal object touches the two posts of a 9-volt battery, it can cause a short circuit. This can make enough heat to start a fire.
- It is unsafe to store 9-volt batteries in a drawer near paper clips, coins, pens, or other batteries. Do not store common household items such as steel wool, aluminum foil, and keys near 9-volt batteries. If these items touch the two posts, there is a greater risk of a fire starting.
- Weak batteries may have enough charge to cause a fire. Some fires have started in trash when 9-volt batteries were thrown away with other metal items.

DuPont Fire Department

Safety Message - 9-Volt Battery Safety Continued.....

Storing 9-volt batteries

- » Keep batteries in original packaging until you are ready to use them. If loose, keep the posts covered with masking, duct, or electrical tape. Prevent the posts from coming in contact with metal objects.
- » Keep them someplace safe where they won't be tossed around.
- » Store batteries standing up.
- » 9-volt batteries should not be stored loose in a drawer. Do not store them in containers with other batteries.

Disposal

- » 9-volt batteries should not be thrown away with trash. They can come in contact with other batteries or pieces of metal.
- » 9-volt batteries can be taken to a collection site for household hazardous waste.
- » To be safe, cover the positive and negative posts with masking, duct, or electrical tape before getting rid of batteries.
- » Some states do not allow any type of battery to be disposed of with trash. Check with your city or town for the best way to get rid of batteries.

9-VOLT BATTERY STORAGE

Keep batteries in original packaging until you are ready to use them. If loose, keep the posts covered with masking, duct, or electrical tape. Prevent the posts from coming in contact with metal objects.
